

Digital Development Dashboard ^{BETA}

An overview of the state of digital development around the world based on ITU data

Libya

INFRASTRUCTURE & ACCESS

Network coverage

Population covered by a mobile-cellular network (2021) (ITU estimate)

78%

Population covered by at least a 3G mobile network (2021) (ITU estimate)

98%

Population covered by at least a 4G mobile network (2021) (ITU estimate)

40%

Mobile phone ownership

Individuals owning a mobile phone

NA

Female mobile phone ownership as a % of total female population

NA

Male mobile phone ownership as a % of total male population

NA

ICT access at home

Households with Internet access at home

NA

Households with Internet access at home, rural

NA

Households with a computer at home

NA

Households with Internet access at home, urban

NA

Mobile and fixed telephone subscriptions

Mobile-cellular subscriptions per 100 inhabitants (2021) (ITU estimate)

43

Fixed-telephone subscriptions per 100 inhabitants (2021) (ITU estimate)

23

Mobile and fixed broadband subscriptions

Active mobile-broadband subscriptions per 100 inhabitants (2021) (ITU estimate)

17

Fixed broadband (% of total): 256kbit/s - <2Mbit/s (2016)

59%

Fixed broadband (% of total): 2 to 10 Mbit/s (2016)

41%

Fixed broadband subscriptions per 100 inhabitants (2021)

5

Fixed broadband (% of total): >10 Mbit/s (2016)

0%

Fixed broadband (% of total): Unspecified speed tier

NA

International bandwidth per Internet user (kbit/s) (2014)

5

Total fixed broadband subscriptions (2021) (ITU estimate)

332000

Libya

INTERNET USE

Percentage of population using the Internet

Individuals using the Internet, total (2014) (ITU estimate)	18%		25-74 years as a % of all 25-74 years	NA
Female Internet use as a % of total female population	NA		15-24 years as a % of all 15-24 years	NA
Male Internet use as a % of total male population	NA		< 15 years as a % of all < 15 years	NA
			75+ years as a % of all 75+ years	NA

Broadband traffic

Average monthly fixed broadband Internet traffic per fixed broadband subscription (MB)	NA
Average monthly mobile broadband Internet traffic per mobile broadband subscription (MB)	NA

ENABLERS & BARRIERS

ICT prices

Mobile data and voice basket (high consumption) as a % of GNI p.c. (2021)	6.2%	
Fixed broadband basket as a % of GNI p.c. (2021)	4.5%	
Mobile broadband basket as a % of GNI p.c. (2021)	3.6%	
Mobile data and voice basket (low consumption) as a % of GNI p.c. (2021)	2.3%	
Mobile cellular basket as a % of GNI p.c. (2021)	1.3%	

ICT skills

Individuals with basic skills	NA
Individuals with standard skills	NA
Individuals with advanced skills	NA

About this dashboard

The Digital Development Dashboard reports the latest values for selected indicators drawn from three ITU data sets:

- **Telecommunication/ICT infrastructure and access data**, collected annually through one short and one long questionnaire. These indicators are defined in the [ITU Handbook for the Collection of Administrative Data on Telecommunications/ICT](#).
- **Price data**, collected through an annual questionnaire. Price indicators are also defined in the [ITU Handbook for the Collection of Administrative Data on Telecommunications/ICT](#).
- **Data on access to and use of ICTs by households and individuals**, collected annually through one short and one long questionnaire. These indicators are defined in the [Manual for Measuring ICT Access and Use by Households and Individuals](#).

This version of the Dashboard uses data collected up to December 2022. When a value is not available, NA is reported. In some cases, it is possible that the value reported for disaggregated indicators is for a different period than the main indicator. For most indicators, values are rounded to the nearest integer. As a result, it is possible that the sum of the values of disaggregated indicators does not add up to 100%.

ICT skills

- **Basic skills:** the highest value among the following four computer-based activities: copying or moving a file or folder; using copy and paste tools to duplicate or move information within a document; sending e-mails with attached files; and transferring files between a computer and other devices.
- **Standard skills:** the highest value among the following four computer-based activities: using basic arithmetic formula in a spreadsheet; connecting and installing new devices; creating electronic presentations with presentation software; and finding, downloading, installing and configuring software.
- **Advanced skills:** the value for writing a computer programme using a specialized programming language.
